

Overview of Technical IT Internship Program

- One year paid internship (starting full time in summer 2014 & continuing part time during the school year)
- Working within different departments and teams
- Interns work on challenging projects that add value to you and Goodyear (no coffee runs)
- Each intern has a mentor assigned who is a full time associate
- IT interns work together on group projects
- High visibility with IT Leadership Team
- Group & individual presentations to IT Leaders

IT Internship from different perspectives

- ***“Our interns are given real work that reinforces classroom learning, and they participate in a combination of group and individual projects. Many interns work on global teams and interact with geographically dispersed team members, helping them learn what it’s like to operate in a global IT environment.” – Jim McKinnon, VP & CIO***
- ***“My Internships at Goodyear have provided the stepping stones to a career full of learning, leadership and people. IT at Goodyear has captured my imagination, and I feel confident taking the next steps in the development of my career.” – Stephen Thorley, Intern in 2012 & 2013***
